

Packages and Pricing

Many other photographers will offer up to eight hours of coverage included in their package prices. Of the many weddings I have been involved with, I don't think any have been eight hours. In fact, most are twelve plus hours from the start of hair and makeup to finishing the final dance and saying good-byes to your closest friends, family, and honored guests. All of my packages include all-day coverage so you can be sure that every moment is captured from beginning to end.
